

Annual 47 C.F.R. § 64.2009(e) CPNI Certification Template

EB Docket 06-36

Annual 64.2009(e) CPNI Certification for 2010 covering the prior calendar year 2009:

1. Date filed: March 1, 2010
2. Name of company(s) covered by this certification: Software Cellular Network, Ltd.
d/b/a Truphone
3. Form 499 Filer ID: 827096
4. Name of signatory: James Tagg
5. Title of signatory: Chief Executive Officer
6. Certification:

I, James Tagg, certify that I am an officer of the company named above, and acting as an agent of the company, that I have personal knowledge that the company has established operating procedures that are adequate to ensure compliance with the Commission's CPNI rules. *See 47 C.F.R. § 64.2001 et seq.*

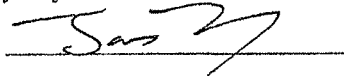

Attached to this certification is an accompanying statement explaining how the company's procedures ensure that the company is in compliance with the requirements (including those mandating the adoption of CPNI procedures, training, recordkeeping, and supervisory review) set forth in section 64.2001 *et seq.* of the Commission's rules.

The company has not taken actions (*i.e.*, proceedings instituted or petitions filed by a company at either state commissions, the court system, or at the Commission against data brokers) against data brokers in the past year.

The company has not received customer complaints in the past year concerning the unauthorized release of CPNI.

The company represents and warrants that the above certification is consistent with 47 C.F.R. § 1.17 which requires truthful and accurate statements to the Commission. The company also acknowledges that false statements and misrepresentations to the Commission are punishable under Title 18 of the U.S. Code and may subject it to enforcement action.

Signed

Annual 64.2009(e) CPNI Certification Accompanying Statement for 2009

Truphone has established policies and procedures to comply with the Federal Communications Commission's ("FCC") rules regarding the use, disclosure, and access to section 64.2001 *et seq.* of the Commission's rules, 47 C.F.R. § 64.2001 *et seq.* These procedures ensure that Truphone is in compliance with the FCC's customer proprietary network information ("CPNI") rules. This statement is a summary of Truphone's policies and procedures designed to safeguard CPNI.

All relevant Truphone staff have received training in relation to the FCC's CPNI regulations. As a result, staff are aware of when they are and are not authorized to use CPNI. Truphone has implemented express disciplinary procedures for unauthorized use of CPNI.

Truphone has implemented measures to discover and protect against attempts to gain unauthorized access to CPNI.

Truphone has implemented measures to authenticate customers. Truphone has implemented a policy to allow call detail information disclosure only in accordance with the following FCC regulations:

- A) The customer providing their pre-established password; or
- B) Either phoning the customer back on the number of record, or sending their information to their address of record.

Truphone employees are required to sign a non-disclosure agreement which requires them to protect all confidential information.

Truphone will obtain Opt-Out approval for the use of CPNI for marketing purposes if the marketing is outside the category of the customer's subscription, but is still based on communications-related products and services. Truphone has implemented a policy whereby any use of CPNI to market non-communications related products and services requires Opt-In approval to be obtained from the customer.

Truphone has implemented a system by which the status of a customer's CPNI approval can be clearly established prior to the use of CPNI.

All Truphone sales and marketing campaigns must be approved by management. We have established a supervisory review process for all proposed outbound marketing requests for customer approval.

Truphone has established a database in which to record all uses of CPNI for marketing purposes. This database includes a description of each campaign, the specific CPNI that was used, and what products and services were offered. This record will be retained for a minimum of one year.

Truphone has assigned an officer to sign the annual compliance certificate, stating

that the officer has personal knowledge that the company has established operating procedures that are adequate to ensure compliance with the FCC's CPNI rules.

Truphone has established a procedure whereby we will provide written notice within five business days to the Commission of any instance where the opt-out mechanisms do not work properly, to such a degree that consumers' inability to opt-out is more than an anomaly.

Truphone has implemented measures to discover and to protect against unauthorized attempts to access CPNI. Truphone also has implemented procedures pursuant to which it will track breaches of CPNI, and it will notify the United States Secret Service and the Federal Bureau of Investigation in accordance with the FCC's rules.

Truphone will notify its customers in accordance with the FCC's rules. Truphone will maintain a record of notifications to the USSS, FBI, for the time period specified in the FCC's rules.

Truphone will track customer complaints regarding CPNI, by keeping records of all complaints and maintaining these records for the minimum period required by the FCC.
